INTRODUCTION

Bourdosoftware is a Portland, OR based company founded by Brian Bourdon and co-founder Kidus Yared

Our mission is to simplify scheduling through affordable technology solutions

Our vision is to empower every organization by creating scalable SaaS solutions that exceed our customers' expectations

This presentation is designed to provide a high-level overview of our product offerings and services

***bourdo*soft**

THE NEED FOR EFFECTIVE VOLUNTEER MANAGEMENT

- Volunteers spent an estimated 4.1 billion hours volunteering between September 2021 to 2022, which is worth 122.9 billion dollars*
- The average retention rate for volunteers is 65% (2/3)*** Engaging volunteers improves retention
- Recruiting, Informing, Scheduling, Confirming, Tracking and Reporting can get complicated; Bourdosoft is here to simplify these obstacles

**AmeriCorps: Volunteering and Civic Life in America*

bourdosoft

FEATURES AND FUNCTIONALITY

- Streamlined volunteer recruitment and onboarding
- Efficient task assignment and scheduling
- Integrated mapping of event locations
- Real-time communication and engagement tools such as automated email and SMS
- Data analytics for performance tracking and reporting

All these features can be customized to your organization's needs. That means you don't need a web/software developer.
